# uni-ball eye

## Structure of the UNI-FLOW SYSTEM

The "UNI-FLOW SYSTEM" ensures smooth writing performance to the last drop of ink. Excess ink flow from the ink reservoir can be temporarily stored to ensure constant ink flow to the pen point.

## UB-150 uni-ball eye

MECHANICAL PENCIL

# KURU TOGA

The world's first auto-rotation mechanical pencil

## "KURUTOGA engine"

Rotation of the lead keeps the pencil with a constant sharp edge and gives users a comfortable writing experience.

This discovery led to the creation of a brand-new core rotation mechanism.

### M5-450T

LEAD DIAMETER: 0.5mm  
BARREL: Plastic (PC)  
SIZE: 14.9x149.0mm/9.8g

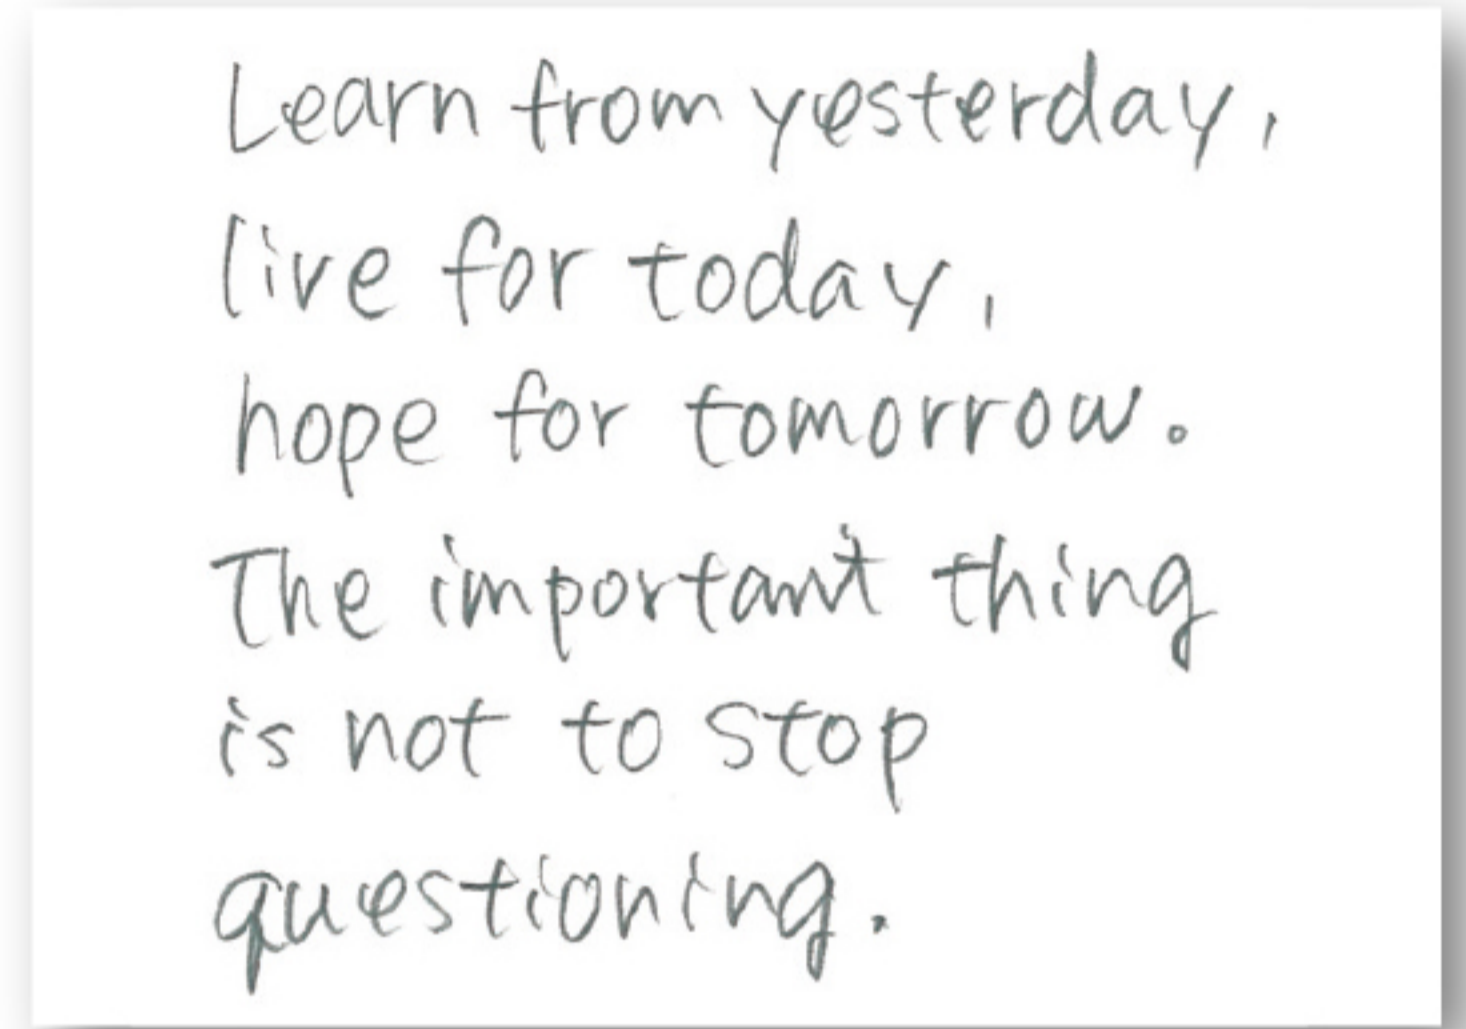

The lead rotates fractionally to maintain an even, cone-shaped tip. It is resistant to breaking and delivers a crisp, dense line.

## Conventional
